

## Dimensions of Canopy with Extension Flue

**Please note:**

The extension flue piece (H: 614mm x W: 210mm x D: 200mm) **replaces** the standard upper flue piece supplied with the canopy. When the standard upper flue is installed the maximum flue height is 770mm. With the extension flue in place the maximum height increases by 295mm. Therefore overall canopy height dimensions (including both hood and flue) are extended from 1010mm maximum to 1305mm maximum.

**Gas cooking appliance clearance requirement:**

The clearance between the supporting surface (trivet) for the cooking vessels of a gas cooking appliance and the lowest part of the rangehood shall be at least 650mm.

\*The fan and light switch are the lowest part of the rangehood
