

Ultimate Food Preservation

Quality, Design and Innovation

SICBN 3356

LIEBHERR

Door-on-door technology: Allows custom panels to be affixed directly onto the appliance door so that the hinges are concealed, plus the cabinet and the fridge open as one, ensuring a wide range of design options and easy installation.

MagicEye control system: Our control panel ensures all functions are easy and convenient to use as well as guaranteeing that the settings selected remain accurate and constant.

BioFresh: BioFresh guarantees the perfect temperature and ideal humidity for much longer freshness. While the DrySafe is perfect for meat, fish, and dairy products, the high humidity in the Fruit & Vegetable-Safe can prevent fruit and vegetables from drying out and helps preserve stored goods for an even longer period.

Note: Whilst every effort is made to ensure all specifications and information in this flyer are accurate, Liebherr reserves the right to make changes without notification. Where actual appliance measurements, specifications, and ratings are crucial, we recommend that the actual appliance installation instructions that accompany each appliance be checked. Liebherr will not be liable for any loss.

The sophisticated **SICBN 3356** fridge-freezer is the perfect built-in appliance for small spaces, galley kitchens, or apartment living. Though slim in stature, this model is full of innovative features such as the BioFresh technology, door-on-door technology for seamless integration, and automatic icemaker. In addition, the flexible FlexSystem included in the Biofresh drawers helps to ensure neat separation and clear sorting.
